

Weekly Report (2017.11.6-2017.11.12)

TASK	DEADLINE	CURRENT PROGRESS
可视交互引擎论文	11.25	目前进展：阅读文档，论文 存在问题：英文写作比较生疏，表达太过抽象 计划：参考学习优秀论文的措辞、写法

Done

- 1) After delivering the LAN project, assist them in installing the LAN system with Teamviewer and fix some problem.
- 2) Review the paper: Visual Analytics for Decomposing Temporal Error Series of Production Lines. During the reading process, I learn something about STL(A Seasonal-Trend Decomposition Procedure Based on Loess). And read one of the related works: Dr. Mei's ViDX.
- 3) Prepare and take the course examination. Complete and submit the course assignments.
- 4) Supplement the content of the review of the previous paper: Visualizing a Million Time Series with the Density Line Chart, which make me realize that I could also read the paper very quickly with high concentration of attention.
- 5) Do gastroscopy to check the stomach, and the bile reflux gastritis is diagnosed. Bile erodes the stomach. It's very bad. On the day of examination, I have a fever feeling terrible.

To Do

- 1) Write paper.
